Green and Healthy Schools
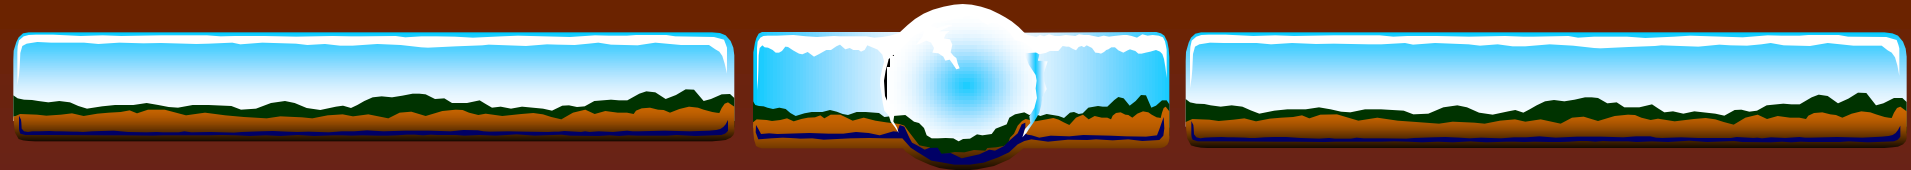

Guidelines for Existing Schools

Basic Information

❖ The program is web based

❖ The program is educationally focused including alignment with KDE goals

❖ The program is student centered

Structure: based on a series of student-conducted inventories

Instructional leadership	Water	Energy
Health and Safety	Green spaces	Indoor Air Quality
Hazardous Chemicals	Solid Waste	Transportation

Support….Partners plus

Inventory Question	Improvement Projects	Alignment to KDE Goals	Technical Assistance

Communication with other Green School Teachers

Incentives

❖ Plaques

❖ Gym banners

❖ Flags

❖ Ceremonies

❖ Healthy kids

❖ Higher test scores

What we need from you

❖ An honest evaluation of how well the program works for you and your students

❖ Specific ideas for improvements

❖ Feedback on what you like

How to let us know what you think

❖ Ideally, each teacher would keep a list (including a list from students) of ideas for improving the program.

❖ We need those lists no later than May 1 to make changes to the program before it officially opens in July.
